at www.grandmasandy.com

This website has free, fun and educational downloads about type 1 diabetes.

Grandma Sandy (Sandra J. Hollenberg) understands the problems that children with diabetes face every day of their young lives. On her website you will find material she created for her grandson Malcolm who was diagnosed in 1996 when he was 2 $\frac{1}{2}$.

Her material is now used by diabetes professionals throughout the world as teaching tools for their young patients. Siblings, grandparents, baby-sitters, teachers, schoolmates and of course, the children for whom her website was developed, all will gain a better understanding of this disease.
